To Whom It May Concern:

I would like to confirm that BUZZ AROUND SHUTTLE SERVICES does work for us.

Normally they transport our local and overseas guests during meeting days. Since they started service with us I have really found them very patient, reliable, safe and always on time, I will therefore recommend them to who ever would like to use their service. The other thing I like about the staff at Buzz Around is the fact that there are always willing to go an extra mile without complaints.

Yours faithfully,

Ms Gugu Moyo

Events coordinator
